

# STREAMLINE YOUR ASSET MAINTENANCE DECISION-MAKING EXPERIENCE

To achieve operational excellence, today's organizations need access to reliable data and user-friendly tools that provide actionable insights and streamline sharing and collaboration among stakeholders. Yet many organizations continue to utilize outdated analytics tools. These tools often fail to provide access to critical data and facilitate communication of asset status with decision-makers. This limits the flow of information needed to optimize budgets, keep projects on track, and makes it difficult to implement proactive maintenance strategies and efficiently allocate maintenance resources.

Accruent's industry-leading CMMS/EAM solution, Maintenance Connection, helps organizations to overcome these challenges with a best-in-class user experience including modern and intuitive dashboards, access to advanced data representation and actionable elements, refined data-driven insights with KPIs at the forefront and streamlined data sharing and reporting features.

**Improved overall experience for data-driven decisions with modern and intuitive dashboards.**

**Enhanced analytics from advanced data representation and multiple actionable elements**

**Refined data-driven insights with both additional and core KPIs at the forefront**

**Streamlined decision-making with the ability to deep dive into reports directly from KPIs**

# POWERFUL FUNCTIONALITY AND A BEST-IN-CLASS DASHBOARD

At Accruent, our team has worked diligently to further deliver superior user experiences and help organizations get the most out of their data.

## New Data Visualizations

- Access to many new data visualization types including bar graphs, line graphs, pie charts, widgets, and more
- Enough space on the screen available for KPIs
- Visual enhancements and new KPIs on the initial summary home screen
- Users can track more assets at their fingertips

## KPIs Enhancements

- Additional KPIs to enhance the communication of key operational data-points and improve data-driven insights
- Multiple actionable data, such as click through KPIs to report and include data directly from Accruent Maintenance Connection into their emails and presentations

## User-friendly Reporting Capabilities

- Access to multiple actionable data
- Ability to dive deep into reports directly from KPIs to streamline decision-making
- Include data directly from Maintenance Connection into emails and presentations
- More effective communication of key operational data-points

## Updated Modern Styling

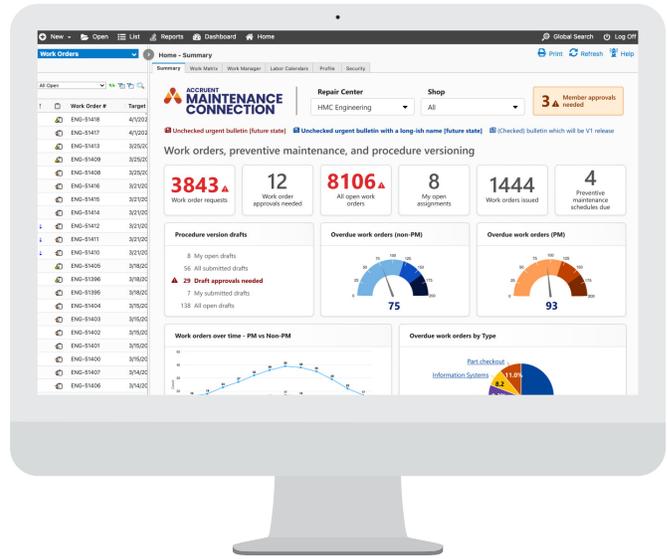

- Modern and intuitive analytics dashboard that provides a richer and more engaging experience

# ELEVATE YOUR ASSET MAINTENANCE STRATEGIES WITH AN EASY AND INTUITIVE MANNER

The new Maintenance Connection analytics dashboards streamline decision-making process for asset maintenance across multiple facilities, in industries such as manufacturing and utilities. Modern and intuitive, our advanced dashboard prioritizes critical KPIs and allows for in-depth report analysis, ensuring your operational strategies are at the forefront. Complemented by innovative widgets, multiple actionable data, additional KPIs and new visualization types, this set of enhancements provides a richer and more engaging experience for decision-makers, optimizing data-driven insights to excel operationally and drive growth.
